

# Final Warning

Almah

You get to know  
Why they enclose your mind  
What's the joke?  
Call suppression: life  
You get to see  
All the tricks behind  
What's the poke that can bring them down?

We get to know  
Why we depend on scarce resources  
why we still claim for oil and gold?  
don't you see how they put you away from  
your independence day

Aplush final warning  
Rudolf diesel says  
A plush final warning  
Stanley Meyer says  
A plush final warning  
Paul pantone says  
Watch out! Live it up!  
They want power  
They will take you away

Undercity cries  
Endless war  
Dead forsaken minds  
Than only a few geniuses survive  
I got to say  
You better run for life

You get know  
We've been suppressed by the empire  
Whose business groups just want control the system  
On behalf of praise for power, glamour and fame

Aplush final warning  
Rudolf diesel says  
A plush final warning  
Stanley Meyer says  
A plush final warning  
Paul pantone says  
Watch out! Live it up!  
They want power  
They will take you away

To get the right answers  
We don't know  
Just make the right questions, go astray  
we have been subdued before we born  
time to reset the game  
Watch out!
