

How Many Times

Alvin Lee

How many times does it happen - how many times would it be ?
How many times does it happen - how many times could it be ?

I remember baby, the things you've done,
And you told me it was wrong
I always thought if you was having fun,
You would know we got along

How many times does it happen - how many times would it be ?
How many times does it happen - how many times could it be ?

I never thought that you would live around,
Until you told me we were through
I never thought that you would let me down,
I never thought that it was true

How many times does it happen - how many times would it be ?
How many times does it happen - how many times could it be ?
