

I Can't Take It

Alvin Lee

Sometimes it aint easy
Just to hit this damn guitar
'N sometimes it aint easy
When you don't know who you are
And honey you don't make it easy
When I don't know where you are
And you knew I just can't take it
If your love is not all mine
And you know I just can't take it
If your love is not all mine

Well I thought I saw my woman
She was a standing on a mountain
'N happiness was standing sttll
Within her loving arms
Then I told her I can't make it
Then I laid her on the line
Cause you know I just can't take it
If your love is not all mine
And you know I just can't take it
If your love is not all mine
