

Images Shifting

Alvin Lee

When you call me your lover, It's alright
Won't let them no I'm your man
You can take any other, It's alright
Just let him know, We're in love
A fool that can't love her
A fool that can't get love
A fool that loves you

Images shifting - Nothing has changed
Just rearranged
My life is driftin' - Believe that it's waste
I see your face callin' me home
Callin' me home
Make me aware, know that you care

When you call me your lover, It's alright
Won't let them no how I feel
You can take any other, It's alright
Won't let it show how I feel
Show how it feels, lord lord lord
Wanta show how it feels, oh oh
Just tryin' to show how it feels

Images shifting, Nothin' is real
Just how I feel
My life is driftin, Must I efface
Driftin' in haste - Is callin' me home
Call-callin' me home
Make me aware, know that you care
