

Let's Get It On

Alvin Lee

Let's get it on, right now
That's what I want to do
Let's get it on
You know it can't be wrong
When you look at me
There's a whole lotta something going on

Come on Baby, light my fire
Flames are burning, I'm getting higher
Come on baby, let's get it on today
I said babe take me downtown
That's where I want to play

Let's get it on, right now
That's what I want to do
Let's get it on
You know it can't be wrong
When you look at me darlin'
There's a whole lotta something going on

Well you told me that you'd love me
If I'd always be your friend
And you told me if I played it cool
I'd get you in the end

So get it on, right now
That's what I want to do
Let's get it on
You know it can't be wrong (oh yeah)
When you look at me girl
There's a whole lotta something going on
(Whole lotta something going on here)

Well there's something about your lovin'
That's driving me insane
Every time I feel you close to me
Here it comes again

Let's get it on, right now
That's what I want to do
Let's get it on
You know it can't be wrong
When you look at me darling
There's a whole lotta something going on

Well you told me that you'd love me
If I'd always be your friend
And you told me if I played it cool
I'd get you in the end

Let's get it on, right now
That's what I want to do
Let's get it on
You know it can't be wrong (oh no)
When you look at me darling
There's a whole lotta something going on.
