

My Baby Left Me

Alvin Lee

My baby left me
She wouldn't tell a lie
Cause she said she would, she did
And she left me high and dry
My baby left me
Last night I heard her cry
She wouldn't tell me why
She just said bye-bye

I used to sing the blues
I thought I sang for real
Now I know the feel
And it hurts too much
My baby left me
She left me all alone
She's never coming home
And I want to die

My baby left me, my baby left me...
