

Why Did You Do It

Alvin Lee

Well I bought you a house and a diamond brush
Why did you leave me in such a rush?
Tell me why did you do it, why did you do it?
Why did you do it, why did you run away?

Well I bought you a washer and a power drill
Why did you go and leave me still?
Baby why did you do it, baby why did you do it?
Why did you do it, why did you take my car?

Well why did you do it, why did you do it?
Why did you do it, baby why did you do it?
Why did you do it, why did you run away?
(Run away from me)

Got a Swedish maid and a French au pair
Baby just to show you that I care
So why did you do it baby, why did you do it?
Why did you do it, why did you run away?

You got a credit card and a brand new van
Why did you go chase another man?
Baby why did you do it, baby why did you do it?
Why did you do it, why did you run away?

Well you can't go back, you can't go back in time
Yeah, you can't go back, can't go back in time
Just like dirty washing
You leave me hanging on the line (rock on)

Well, you can't go back
You can't go back in time
Yeah, you can't go back,
Can't go back in time
Just like dirty washing
You leave me hanging on the line (rock on)

Well why did you do it, why did you do it?
Tell me why did you do it?
Baby why did you do it?
Why did you do it?
Why did you run away?
(Run away from me one more time).
