

You Need Love Love Love

Alvin Lee

You need love, love, love - and I can give it
You need love, love, love - that's what you want
You need life, life, life - so you can live it
You need love, love, love - that's what you want

You need love, love, love - and I can give it
You need love, love, love - that's what you want
You need life, life, life - so you can live it
You need love, love, love - that's what you want

Love can be so good to you, love can make you high
Love can also bring you down, make you want to die
It's love that makes the world go 'round, you just know it's true
Got a feeling deep inside, I will stick to you

You need love, love, love - and I can give it
You need love, love, love - that's what you want
You need life, life, life - so you can live it
You need love, love, love - that's what you want

You need love, love, love - and I can give it
You need love, love, love - that's what you want
You need life, life, life - so you can live it
You need love, love, love - that's what you want

Love can be so good to me, you can have it too
You can also let it be, I'll give mine to you
Love is always in your mind, just you let it out
Love I want to give to you, that is why I shout

You need love, love, love - and I can give it
You need love, love, love - that's what you want
You need life, life, life - so you can live it
You need love, love, love - that's what you want.
