

# Heartache

Amanda Perez

This shit hurts  
I don't wanna feel it no more  
I hated to see you walk out that door  
I lost my mind, fucked up my life  
I didn't think about hurting you inside

I just want your love  
I can't feel my heart  
When you walked out you just tore me apart  
No one should feel this pain  
Nothing but heartache  
You gave me life just to take it away

I can't take back the past  
Every day I live with regret

I shouldn't have let you go  
You meant the most to me  
This isn't the way it's s'posed to be

I just want your love  
I can't feel my heart  
When you walked out you just tore me apart  
No one should feel this pain  
Nothing but heartache  
You gave me life just to take it away

I just want your love, your love  
I can't feel my heartbeat, no  
I just want you by my side, ride or die  
Love of my life, yes I

I just want your love  
I can't feel my heart  
When you walked out you just tore me apart  
No one should feel this pain  
Nothing but heartache  
You gave me life just to take it away

I just want your love  
I can't feel my heart  
When you walked out you just tore me apart  
No one should feel this pain  
Nothing but heartache  
You gave me life just to take it away
