

# How U Luv Dat

Amanda Perez

Its friday night  
We was good from head to toe  
We was lookin so tight  
The moment i leave his side  
She trys to creeps up from behind  
I seen her with my own eyes  
Why u tryna lie  
Theres plenty of other guys  
Why you got to f\*\*k with mine  
See hoes like you give n\*\*gas love  
After the club its on  
And thats whats up

Go let her know  
Yea i know hes fine  
Tryna run up but  
Hes already mine  
When he looks at you  
He laughs in your face  
Silly hoe you should know  
You can never take my place

Go ahead and flaunt  
And Drop it like its hot  
No matter what you do  
And forget me not  
Dont try to be sneaky  
And keep it on the low  
You should already know  
To him your just another hoe

She said what you mean  
I came to the bar  
To get me a drink  
S\*\*t you was on my man  
Faster then i could be  
What your think ima fool  
You think hes gonna leave me  
To be with you  
You an average chic  
Stop wadding him like  
He was your s\*\*t  
For i cock back my hand  
And bust your lip  
It will be a one way trip  
Its ya last and this is it

Go let her know  
Yea i know hes fine  
Tryna run up but  
Hes already mine  
When he looks at you  
He laughs in your face  
Silly hoe you should know  
You can never take my place

Go ahead and flaunt

And Drop it like its hot  
No matter what you do  
And forget me not  
Dont try to be sneaky  
And keep it on the low  
You should already know  
To him your just another hoe

All my ladies out there  
You know what im talking about  
If you got a good man  
You better look out  
'cause waht u got, is what they want  
Tell them hoes they better push on  
They on a mission, better listen  
To what i say 'cause  
These hoes get around everyday

Go let her know  
Yea i know hes fine  
Tryna run up but  
Hes already mine  
When he looks at you  
He laughs in your face  
Silly hoe you should know  
You can never take my place

Go ahead and flaunt  
And Drop it like its hot  
No matter what you do  
And forget me not  
Dont try to be sneaky  
And keep it on the low  
You should already know  
To him your just another hoe

Go let her know  
Yea i know hes fine  
Tryna run up but  
Hes already mine  
When he looks at you  
He laughs in your face  
Silly hoe you should know
