

This Time

Amanda Perez

Oh Yea yea yea yeah

Picked up my phone n I heard him say "Baby gurl how you been?"

I hope you don't mind got your number from yo best friend

See I ain't seen you in awhile and I'm missin' your smile

So when you're ready we can just roll out

We can do all the things that we use to dooooo

My life ain't been the same since I left youuuu

All this time that I've been gone couldn't keep you off mi-ine

So baby baby I ain't letting you go this time

Goin' on two weeks n he's doin' everything he should

I give him breakfast in the morning and at night he makes me feel good

I catch you looking in my eye-eyes and I know that he's all mi-ine

We all make mistakes but he showed me it's not too late

We can do all the things that we use to dooooo

My life ain't been the same since I left youuuu

All this time that I've been gone couldn't keep you off mi-ine

So baby baby I ain't letting you go this time

Mama said let it go if it's meant it will come right back

He's gotta be the one cuz when I'm home he can make me laugh

And when we fightin n fussing

he can make it all up with all his good lovin

How I miss those times when we wake up in the morning just to see the sun rise

And there the times when

I'm alone when you smell it on his t-shirt that shot like cologne

It don't matter that he's gone cuz I know my baby's coming home

We can do all the things that we use to dooooo

My life ain't been the same since I left youuuu

All this time that I've been gone couldn't keep you off mi-ine

So baby baby I ain't letting you go

We can do all the things that we use to dooooo

My life ain't been the same since I left youuuu

All this time that I've been gone couldn't keep you off mi-ine

So baby baby I ain't letting you go this time
