

Sometimes

Amanda Somerville

Sometimes I wonder if it's true
What they say of me and you
'Course I know that you love me
And it's good as it can be
But is anything really perfect
I guess we'll see

Sometimes I wonder
Can it be that this is it
You are for me
'Cause I know that I love you
Nights are lonesome without you
But could anything be forever
I guess we'll see

Walking along, one thing in mind
You and me together
The sound of you whispering falls on my ears
And all my doubt soon disappears

Sometimes I wonder... will it stay
'Cause I'd be crushed if you went away
But could anything be that tragic
I guess we'll see

Of course, I know that you love me
And it's good as it can be
But could anything be forever
Could anything be that perfect
Could anything be that tragic
I guess we'll see...
