Well, she said all along, I'm her one
A little fingernail polish, chewin' gum
Her round the world heart made of platinum, that's right

She looks like a China doll baby, especially in white A tropicana flower in the candlelight
She turned into a pumpkin pie, sweet kiss at midnight

She moves, oh so fine
She's like a perfect valentine
She's not one to fall in love
She's too high on the stars above at night

She wants to be your red-hot mama, all alone She dances with the boys on the telephone She makes a lotta noise in the quiet zone at night

Yeah, you talk about a party at the beach, ain't that grand She just took a raincheck with another man Who lay on the deck of his catamaran some night

She moves, oh so fine
She's like a perfect valentine
She's not one to fall in love
She's too high on the stars above at night

Well, I can't tell you much, but what I know (what I know) You can't take her with you when it's time to go 'Cause she knows where it's at with a Romeo, you'll see

She moves, oh so fine
She's like a perfect valentine
She's not one to fall in love
She's too high on the stars above at night

She moves

Just like a perfect valentine

She's not one to fall in love

She's too high on the stars above at night
