

Emelia
Tell me, what have you done?
Are you always runnin'
From the ones that you love?

Your toothbrush still sits
Right where you left it
You called it quits
And you walked out my door

And why do you always run
When the goin' gets tough?

When you've lived with the devil

You pray there's a God
But you curse his name
When you find out there's not

Cause he takes what you love
And he throws it away
Think he gets off
When a grown man cries

And why does he always run
When the goin' gets tough?
Goin' gets tough
