

## Family Problems

American Aquarium

This town has got a way of sucking you in  
Chewing you up just to spit you back out again  
I ain't getting any younger  
Every day is an uphill battle  
Starring down the barrel of the choices that I made

So I hope you understand  
That I am a broken man  
But if you'll take my hand  
I'll let you fix what you can

Just like my mothers brother I got the family problems  
She still calls me sobbing lord begging me to quit  
And every time I see her she says I've got his eyes  
And constantly reminds me he was dead by 45

So I hope you understand  
That I am a broken man  
But if you'll take my hand  
I'll let you fix what you can
