Built for Speed

American Hi-Fi

She's on fire like a rocket spinning out of control
Try to stop her but you just don'tknow
How to keep it inside
Can you keep on turning out
I'll wait for my turn
Same old story coz you never learn
Gotta make it in time

She don't know what she does to me
The girl got soul and rhythm in between
I crash and burn like every other time
She's my little rock n roll queen
I got a girl like that
My baby's built for speed

Shoot to kill built to spill

Got a mind take your pills

But your never gonna get to what thrills

All of us inside

Can you put the pedal to the metal this time

You gotta want it like I want it alright

We gotta start tonight

She don't know what she does to me
The girl got soul and rhythm in between
I crash and burn like every other time
She's my little rock n roll queen
I got a girl like that
My baby's built for speed

She's on fire like a rocket spinning out of control Try to stop her but you just don'tknow
How to keep it inside

She don't know what she does to me
The girl got soul and rhythm in between
I crash and burn like every other time
She's my little rock n roll queen
I got a girl like that
My baby's built for speed

I got a girl like that My baby's built for speed

Yeah my baby's built for speed (2x)
