

# The Gold Rush

American Hi-Fi

She caught the gold rush  
I could never get enough  
She's been in magazines  
What a little beauty queen  
She'll stay a stick around a while  
With such a winning smile  
She could be in black and white  
I'm colour blind I'll make it right

Her head keeps spinning round  
I'm in over my head  
There's an art to falling down

Hey hey I got a message for ya  
You're gonna blow it girl  
Stuck in your little world  
Fight fight till we get it right  
I got you right where I want you

She caught the goldrush  
I must of lost my touch  
She's on the movie screen  
Acting like a rocket queen

She'll so the long mile  
With such a winning smile  
Break it down forever  
I don't want her anyhow

Her head keeps spinning round  
I'm in over my head  
There's an art to falling down

Hey hey I got a message for ya  
You're gonna blow it girl  
Stuck in your little world  
Fight fight till we get it right  
I got you right where I want you

Golden girl  
She's just a golden girl  
My little rocket queen  
On the movie screen

Hey hey I got a message for ya  
You're gonna blow it girl  
Stuck in your little world  
Fight fight till we get it right  
I got you right where I want you

Hey hey I got a message for ya  
You're gonna blow it girl  
Stuck in your little world  
Fight fight till we get it right  
I got you right where I want you
