

Keep Me Around

American Music Club

There's so little love left in my heart for anyone
I'm like an ant on your map
You can see me going down the drain

Will you keep me around
I've got nothing to hold on to
The sound the air makes as I fall
Is like a laugh that was torn
From way nothing was before
From when things just seemed the same
How did I get so far down

Will you keep me around
If you don't want me, why don't you say
Why don't you tell me
I've been cut off for so long from anyone
My face is like a broken map and I can't go anywhere

Will you keep me around
