

# Only Love Can Set You Free

American Music Club

You say that weakness is only  
a way to give your heart to the enemy  
but if the blow that knocks you out  
is the one you don't see  
then why are you fighting?  
Listen: before you lose the ocean from your tears,  
before your face is carved out of stone  
before they finally force you to your knees -  
only love can set you free.

You were no civilian, you fought every war  
and now you don't wanna fear your heart anymore  
Now you only do what's good, because you're good  
Now you only do what you should, because you're good  
Listen: it takes a baby years to know  
what's gonna make it stop crying  
that what it wants isn't hard to see -  
only love can set you free.

I've been so lucky  
Now I'm just a normal man, that's true  
And I got nothing to brag about, or yes I do  
that once I was loved by someone like you  
that once I loved someone like you  
Listen: what you find when you lose your way  
are gunshot signs on a haunted sky  
that only point you to a crowded mystery -  
only love can set you free.

I've been so lucky
