

Smile On Me

American Steel

It's eight in the morning and you've
been crying all night
Why do you wake me now?
All these hours I've been sleeping peacefully
Your imagination has been running wild
Oh honey rest
Your wet nose on my chest
I'll make it alright
We do this every night
'Cause I love you like a child of mine
I wish more like a friend sometimes
But hey, that's still love anyway
I'm wide awake so sing it...
"I don't wanna feel the hurt no more,
Smile on me baby"
'Cause I love you like a child of mine
I wish more like a friend sometimes
But hey, that's still love anyway
