

Round and Round

Amiel

Another night
It's only leading to another day
I'm alright
But I want to be more than just OK
We're all the same
All just trying to find our way
So why contain
All those things we want to say

Round and round we go again
Just trying to make sense
Why do we hesitate to speak the truth
Round and round it never ends
Too easy to pretend
That we don't feel the way we do

Now what could I say
Is there a truth that you couldn't take
So give it a try
Coz we're not getting closer with a lie
We're all the same
We're all just trying to find our way

Round and round we go again
Just trying to make sense
Why do we hesitate to speak the truth
Round and round it never ends
Too easy to pretend
That we don't feel the way we do

Round and round
Round and round
Round and round we go
Round and round
Round and round we go again
We're all the same
We're all just trying to find our way

Round and round we go again
Just trying to make sense
Why do we hesitate to speak the truth
So round and round it never ends
Too easy to pretend
That we don't feel the way we do
Just tryin' to make a sense of it all
Know that I'll be there because
These are just the things we're goin' through
Coz you are just like me and I am just... like you
