

# Long Line Of Pain

Amos Lee

I come from a long line of pain  
My family suffered greatly for my gain  
And I think a lot about  
How my daddy died  
So I would not live without

And his heart lives in my song  
Where the melody comes  
And just as quickly the melody is gone  
I'm back alone, far from home

Now my mamma's on her own  
I try to call her and see her when I'm home  
And after all that she's been through  
All the doctors say: "There ain't nothing we can do"

And her heart lives in my song  
Where the melody comes  
And just as quickly the melody is gone  
I'm back alone, far from home

There's a bird outside my window  
Takes the song where he goes  
And he leaves it there  
Like a dead man's rocking chair

And tonight I'm feeling lost and  
Headin' down the highway out to Boston  
I get the sense I might lose it  
I thank God tonight for the light I got in music

'Cause my heart lives in this song  
Where the melody comes  
And just as quickly, the melody is gone  
I'm back alone, far from home
