

# I May Love You Now

Amy Dalley

I should run like hell  
I should save myself  
You got weapons  
You disguise  
You bend the rules  
It's just what you do  
I still look for truth  
Hidden in your lies  
Yeah you got it good

(Chorus)

'Cause I'm still here  
Hoping you'll come around  
I keep holding on  
To what I should put down  
Baby you got a way  
Of making my world stand still  
And I can't give up on  
How good that feels  
I may love you now  
But that don't mean I will

You cross the line  
Stand on thin ice  
One step away  
From breaking through  
No I'm not weak  
Not like you think  
I'm not afraid  
To walk away from you  
But I don't want to

(Repeat Chorus)

I could pack it up  
Get out of this town  
It's not as easy as it sounds

I'm still here  
Hoping you'll come around  
I keep holding on  
To what I should put down  
But you got a way  
Of making my world stand still  
And I can't give up on  
How good that feels  
I may love you now  
I may love you now  
That don't mean I will  
I may love you now  
Oh but that don't mean I will
