

What's In It For Me

Amy Diamond

Ah ah ah ah

okey

It's so confusing - you sure be(en) messing with my mind

You cut me loose and - suddenly we're doing fine

I'm not a perfect little girl - but I should get what I deserve

And I refuse to be your mother - so tell me

What's in it for me - I really gotta know

What's in it for me - this ain't a one man show

In my life you come and you go

Ain't happy about it - so I gotta know

What's in it - what's in it for me

Please understand me - your games ain't working anymore

You can't have this candy - and keep one foot outside the door

How you only come around - when your life is upside down

And I'm about to blow your cover - so tell me

What's in it for me - I really gotta know

What's in it for me - this ain't a one man show

In my life you come and you go

Ain't happy about it - so I gotta know

What's in it - what's in it for me

Got no time for a hit and run - I need more than a little fun

Cause I only play for keeps

I gotta know what it's all about - go ahead and spit it out

What's in it for me

Chorus
