Leave Me There

Leave me there By the fire Cover me With a blanket Over me dead body Hold on Take a sandwich And keep me company 'Till I Ssssleep Over my dead body I'm so cold

Leave me here Think of nothing Or tell me everything About Usssss I'm so cold

We're walking Closely together In the park At night Almost full moon For lunatics and lovers I'm worthy of you

Darling I'm looking for protection After ten days of rain Everything is soaking wet Baby does make me Forget He said: "Oh what a love"
