

## Punching Joe Bonni's Face In

**Anal Cunt**

in all your reviews you always talk about yourself  
no one really cares how drunk or high you are  
you always write about the dumbest f\*\*king bands  
it figures you live in allston  
you try and take over everything you're involved in  
you started a new column because your camera got broken  
are you gonna start a new column when i punch your face in?
