Already Dead

Anarbor

I don't always question everything.
And in my brain it keeps me wandering.
Cause I will always be afraid to die.
If don't I have somebody by my side.

Cause I already know,
Where you have been.
Was it all in my head?
Am I already dead?
If you never come back.
Turn off the lights.
Lie in to bed,
Cause I'm already dead.

I'm over thinking all the little things.
Where you've been and where you're gunna be.
You won't ever be afraid to die,
Until you have somebody by your side.

Cause I already know,
Where you have been.
Was it all in my head?
Am I already dead?
If you never come back.
Turn off the lights.
Lie in to bed,
Cause I'm already dead.

I'm over thinking all the little things.
Where you've been and where you're gunna be.

Cause I already know,
Where you have been.
Was it all in my head?
Am I already dead?

Cause I already know,
Where you have been.
Was it all in my head?
Am I already dead?
If you never come back.
Turn off the lights.
Lie in to bed,
Cause I'm already dead.

I'm already dead,
I'm already already dead.
