

I don't feel time
When I leave
I promise I'll call you in the next city if you want me to
You can text me
I've been drinking
In a Midwest town since 10am

It's a one way road when I can't stay
All the lonely lines on the highway
I broke your heart I felt some way
When I get home baby we can run away

I fall in place
When I'm gone
Think about my life and everything I did wrong along the way
You can text me
I've been drinking
Alone in a hotel bar since 10am

It's a one way road when I can't stay
All the lonely lines on the highway
I broke your heart I felt some way
When I get home baby we can run away

It's a lovely road but I can't stay
I left my body on the highway
I know I tend to go MIA
But when I get home baby we can run away

Yeah we can run away
We can run away
Ooooooh
Baby we can run away
