

## Boxer

## Anastacia

The boxer in the ring  
Blocking all of the shots  
This chaser of a dream  
Who will never stop  
G-g-gets up when knocked down  
Protects you every round  
There are no rules here  
Don't need no fence, no rope  
This life won't take me out

Don't ring the bell  
Just leave me here  
Don't ring the bell  
I, I won't give up  
Don't ring the bell  
Just leave me here  
Been thrown in the game, yeah  
Nothing can phase me

I'm woken up to see the light  
I'll never give up on this fight  
Dare to dream and realize  
We are, we are bloody lucky  
Beauty lies in every scar  
With never doubting who you are  
Reaching up to touch the stars  
We are, we are bloody lucky

Hit me like you do  
Don't wait

I'm a boxer in the ring  
I ain't got nothing to prove  
I'm a survivor by name  
Whether I win or loose  
And with every mistake  
Only so much that you can take  
There are no rules here  
Don't need no fence, no rope  
This life won't take me out

Don't ring the bell  
Just leave me here  
Don't ring the bell  
I, I won't give up  
Don't ring the bell  
Just leave me here  
Been thrown in the game, yeah  
Nothing can phase me

I'm woken up to see the light  
I'll never give up on this fight  
Dare to dream and realize  
We are, we are bloody lucky  
Beauty lies in every scar  
With never doubting who you are  
Reaching up to touch the stars

We are, we are bloody lucky

Hit me like you do

Don't wait

Hit me like you do

Always

Hit me like you do

Don't wait

We are, we are bloody lucky

Been thrown in the game, yeah
