

# In Your Eyes

Anastacia

Tripped along many stones  
Enough to say  
I found my own way  
I don't know where to go  
Couldn't see where it leads

Making castles in the sand  
Afraid no one else would hold my hand  
I'm stained from the world  
Sad, sad, sad little girl

But I see in your eyes  
You wear no disguise  
Help me find my way  
I'm like a bird in the sky  
You helped me to fly  
Fly away  
Fly away  
Back home... back home

Holding on to memories  
Often scared  
Of what I'd see  
And then you came  
And then you came  
And rescued me  
And I'm okay  
I'm okay

But I see in your eyes  
You wear no disguise  
Help me find my way  
I'm like a bird in the sky  
You helped me to fly  
Fly away  
Fly away

Oh and I know you'll never leave me alone  
I'll follow you just anywhere that you go  
In my life I can see you  
I know I believe you will stay, oh  
In your eyes  
You wear no disguise  
Oh oh oh  
Like a bird in the sky  
You helped me to fly  
Oh yeah oh oh oh

In your eyes oh oh  
Oh yeah, oh yeah  
Yeah hey yeah oh  
I said you're like a bird in the sky  
You helped me to fly  
Fly away  
Fly away  
Back home  
Back home

In your eyes
