

Pain

Anastacia

Once again, into the waters
Into the waters unknown
It's not the end, though it's getting darker
So much darker and cold

Heartbeats fade away
Almost been erased
Nothing stays the same

Cause I can feel your pain
And I know you're not to blame
Don't dim all the lights
When nothing's going right
I'll be by your side
Cause I can feel your pain

Levitate, from the gutter
Out of the gutter, of stones
Don't complicate, why suffer
Why would you suffer, alone

Heartbeats fade away
Almost been erased
Nothing stays the same

Cause I can feel your pain
And I know you're not to blame
Don't dim all the lights
When nothing's going right
I'll be by your side
Cause I can feel your pain

Cause I can feel your pain
And I know you're not to blame
Don't dim all the lights
When nothing's going right
I'll be by your side
Cause I can feel your pain
