

## Are We Alone?

Anavae

Wait for me my love  
I've been searching for the truth about life  
Wait for me my love  
'Cause I'm not ready to be alive  
I changed my mind, I want to believe  
(They don't believe, he don't believe)  
Searching for lights, I wanted the truth  
(They're not the light, they're not the way)  
I feel it in my skin, I feel it in the air  
I know we're not the only ones alive out here  
Are we alone?  
I've got a theory!  
Are we alone?  
I needed something to believe in  
Aloneeeee? I believe  
Aloneeeee? I believe  
If it's just us then what a waste  
(A waste of space, always alone)

Find me a reason, why we're here  
(What is our purpose who are we?)  
I never learned to speak in numbers  
Poetry never proved a thing  
Are we alone?  
I've got a theory!  
Are we alone?  
I needed something to believe in  
Aloneeeee? I believe  
Aloneeeee? I believe  
Wait for me my love  
Wait for me my love  
'Cause I'm not ready to be alive  
'Cause I'm not ready to be alive  
Are we alone?  
I've got a theory!  
Are we alone?  
I needed something to believe in  
Aloneeeee? I believe  
Aloneeeee? I believe
