

# Bring Me Down

Anavae

Bring me down to you

I sometimes see the shadow on my back  
I don't know his name, but he sometimes loses his way  
I seem to train forgetting the things  
Once again I'll begin, off again to a grain

But I wish, I wish you well

Bring me down to you  
Bring me down to you  
You're going to feel alone  
So bring me down to you

I sometimes feel alone, beyond the maze  
All the places lost, could have been, should have been  
If you say one's name enough  
In your head will they hear you?

I can see your face, I don't know what do I see  
But I wish you well

Bring me down to you  
Bring me down to you  
You're going to feel alone  
So bring me down to you

And my head's about to burst  
With all the actions I did not take  
And all the words I did not say forever  
Forever living on the inside  
You're never here when I need you  
And you need someone, I'll speak

What if you stayed, the drums feeling diluted  
Till then there's nothing, no

Bring me down to you  
Bring me down to you  
You're going to feel alone  
So bring me down to you
