

Colonizing Asteroids

Ancient Dome

Imaging to succeed in something never seen
A difficult undertaking has started for the skipping

A handful of soldiers devoted to sacrifice
Their face branded with demure smile
Mercenaries without control, in their currency paralyzed
An enterprise we can't forget in the future of mankind

Armies of ghosts roam across the space
So sure and proud in duty, in their last masterpiece
Masters of devoured lands, Kings of fake past days
Ignorance and tragedy lead them to uninhabitable places

Races abandoned to their fate
Asteroids of loneliness
Leaders trapped in cage
Broken hearts in illness
A sickness straight to the core
Symptom of human frailties
No welcome to the soul
An eternal quest in sorrow

Armies of ghosts roam across the space
So sure and proud in duty, in their last masterpiece
Masters of devoured lands, Kings of fake past days
Ignorance and tragedy lead them to uninhabitable places

Led by pure hypocrisy
Driven by the sense of fault
Divided in their agony
No hope for the Argonauts... no more

A handful of soldiers devoted to sacrifice
Their face branded with demure smiles
Mercenaries without control, in their currency paralyzed
An enterprise we can't forget in the future of mankind

Armies of ghosts roam across the space
So sure and proud in duty, in their last masterpiece
Masters of devoured lands, Kings of fake past days
Ignorance and tragedy lead them to uninhabitable places
