

## Don't Feel Much

Andrew Allen

Young love, grew old, my hands, still hold  
Your heart, ice cold, you're done, I fold  
Long nights, short days, I'm strong, they say  
These walls, I made, to hide the pain

I tried to turn a little part of me off  
Hoping I could feel numb, thinking I could move on  
The problem is you can't just turn a piece off  
Ya shut the whole damn thing off, I can't even feel love

'Cause I don't feel much, I don't feel much at all  
I know this sucks, I need someone to call  
To get this off of my chest, I'm trying my best to breathe again  
'Cause I wanna feel something, I wanna feel something  
'Cause I don't feel much, no, I don't feel much

You left, I froze, my heart, it broke  
Turns out, I don't, like being, alone  
My tears, ran dry, no pain, just time  
Trapped in, my mind, maybe that's why

I tried to turn a little part of me off  
Hoping I could feel numb, thinking I could move on  
The problem is you can't just turn a piece off  
Ya shut the whole damn thing off, I can't even feel love

'Cause I don't feel much, I don't feel much at all  
I know this sucks, I need someone to call  
To get this off of my chest, I'm trying my best to breathe again  
'Cause I wanna feel something, I wanna feel something  
'Cause I don't feel much, no, I don't feel much

Maybe I'm afraid I'll die, and I won't feel a thing  
Or maybe I'm just terrified that I won't love again

'Cause I don't feel much, I don't feel much at all  
I know this sucks, I need someone to call  
To get this off of my chest, I'm trying my best to breathe again  
'Cause I wanna feel something, I wanna feel something  
'Cause I don't feel much, no, I don't feel much  
I don't feel much
