

Pieces

Andrew Belle

You and me
Got ourselves a problem
I can see this
Better than I solve em

I believed
I found a way around it
I will leave
This better than I found it

There's too much smoke to see it
There's too much broke to feel this
I love you, I love you
And all of your pieces

There's too much smoke to see it
There's too much broke to feel this
I love you, I love you
And all of your pieces

History's a letter made of scarlet
Victories look better when you've called it
Misery's the moment when I lost you
It's pleasure in a costume
It's more than what it cost you

There's too much smoke to see it
There's too much broke to feel this
I love you, I love you
And all of your pieces

There's too much smoke to see it
There's too much broke to feel this
I love you, I love you
And all of your pieces

All of your pieces
All of your pieces
All of your pieces

All of your pieces
All of your pieces
All of your pieces

There's too much smoke to see it
There's too much broke to feel this
I love you, I love you
And all of your pieces

There's too much smoke to see it
There's too much broke to feel this
I love you, I love you
And all of your pieces
