```
You and me
Got ourselves a problem
I can see this
Better than I solve em
I believed
I found a way around it
I will leave
This better than I found it
There's too much smoke to see it
There's too much broke to feel this
I love you, I love you
And all of your pieces
There's too much smoke to see it
There's too much broke to feel this
I love you, I love you
And all of your pieces
History's a letter made of scarlet
Victories look better when you've called it
Misery's the moment when I lost you
It's pleasure in a costume
It's more than what it cost you
There's too much smoke to see it
There's too much broke to feel this
I love you, I love you
And all of your pieces
There's too much smoke to see it
There's too much broke to feel this
I love you, I love you
And all of your pieces
There's too much smoke to see it
There's too much broke to feel this
I love you, I love you
And all of your pieces
There's too much smoke to see it
There's too much broke to feel this
I love you, I love you
```

And all of your pieces
