

Between us  
Screaming, pleading  
Mercy God  
No relief this strain, tried true now  
I give up

Between us  
Screaming, pleading  
Mercy God  
No relief this strain, tried true now

Flutter as a dragonfly  
Try and see through my eyes

Fly high, there you go  
How low can you go?

Don't you have an honest bone  
Dragging down this stepping stone, I fall  
Darkened little alleyway  
Gutter slime this trying day, I call

Hear me as I tell you now  
This is the way and this is how I've tried

Fly high, there you go  
How low can you go?

Between us  
Strange caress  
Sister brother,  
I confess I never knew

Tried my hand in many things  
Fade away now what remains  
I've been a fool  
(True)

You were never good enough  
Learned my lesson  
I can laugh honestly

Fly high, there you go  
How low can you go?

Fly high, there you go  
How low can you go?
