Spiral

Andy Hunter°

My life, been changing, moving forward over time
Getting closer to the order all the time

If I use what I have found
Then even if I fall
I'll jump up from the ground

So I'll, Be changing, moving upwards every time
Never ending like this spiral, inside me

If I use what I have found
Then even if I fall
I'll jump from the ground

So I'll step forward for the fight
I will win or I will learn
Keep on spinning until I get it right
Always growing as I turn

There is a turning point for everyone to find

You need to let go to see gravity be found
And then use what you have found
So even if you fall
You'll jump up from the ground

So I'll step forward for the fight
I will win or I will learn
Keep on spinning until I get it right
Always growing as I turn

Suddenly it's clear
Spiral motion .....
Destinations growing near
A process as endless as...time

So I'll step forward for the fight
I will win or I will learn
Keep on spinning until I get it right
Always growing as I turn
