

Cold outside

Anette Olzon

Hard to remember the last
time you hold me tight
in your arms all night
Won't you go back to the past
Talk me about a fight
When everything felt right

Don't leave me now
I just don't think I'm strong enough
And it's cold, it's cold
It's cold outside tonight

It's like you met someone else
There's someone on your mind
I feel it in my spine
I promise if that is the case
She can't love like me
Unconditionally

Don't leave me now
I just don't think I'm strong enough
And it's cold, it's cold
It's cold outside tonight

Don't leave me now
I can't move on if you're not here
And it's cold, it's cold
It's cold outside tonight

I know I'm not flawless
I'm sunshine and darkness
Sometimes we get lost just like footsteps in sand
And no one is better
And why would it matter
Sometimes we just feel it a little too fast

Don't leave me now
I just don't think I'm strong enough
And it's cold, it's cold
It's cold outside tonight

Don't leave me now
I just don't think I'm strong enough
And it's cold, it's cold
It's cold outside tonight

Don't leave me now
I can't move on if you're not here
And it's cold, it's cold
It's cold outside tonight
