

No Exit

Angel City

Tell me, why the secrets have disappeared
Cover up, the traces of wasted years
The traces of wasted years
The mirrored face of fear

Cover up, the candle that sheds a tear
Build it up, alibis for the damned
Hide away, don't ever reveal your plan
Looked down at your bloodstained hands, no one spoke
The information cited you by name, the silken rope

I know you're gonna leave me with no exit
I know you're gonna leave me with no exit

Lock it up, standing behind closed doors
Give it up, no hiding place anymore
No hiding place anymore
You know that I know where you are
We've been through all this before

I know you're gonna leave me with no exit
I know you're gonna leave me with no exit
I know you're gonna leave me with no exit
I know you're gonna leave me with no exit

(Solo 1)

Alibi, hiding behind closed doors
Give it up, no hiding place anymore
No hiding place anymore
You know that I know where you are
We've been through all this before

I know you're gonna leave me with no exit
I know you're gonna leave me with no exit
I know you're gonna leave me with no exit
I know you're gonna leave me with no exit

(Solo 2)

I know you're gonna leave me with no exit
