

Talk About You

Angel City

(Bla, bla, bla...)
(Yeah, yeah, yeah...)

Talk, talk, talk, talk
Party, last to arrive
They all stop talking
Standing in a circle of eyes

They talk about you
Talk about you
Talk behind your back
Trying to put you down
Talk about you
Talk about you
Every time you wanna show your face
They look at you

Oh no! Isn't it a shame?
One long night
And you gotta bad name

Talk about you
Talk about you
Talk behind your back
Trying to put you down
Talk about you
Talk about you
Every time you wanna show your face
They look at you
They look at you

(Solo)

Why's everybody talking?
Why's everybody talking?
Party, last to arrive
They all stop talking
Standing in a circle of eyes

Talk about you
Talk about you
Talk behind your back
Trying to put you down
Talk about you
Talk about you
Every time you wanna show your face
Every time you wanna show your face
Every time you wanna show your face
They look at you
