Angel Haze

I could see us on the TV lookin' gleamy, lookin' freezy  
Yeah, I know you wanna be me  
Whats the budget? Don't believe me  
I was leveled like Luigi  
Took a puff it made me 3D  
Yeah, I know you want to get it  
Bitch I got the golden ticket

Cuz you cannot leave me alone  
I got three amex and a cellular phone  
I got two Rolex and the diamonds glown  
I don't know what type of time I'm on  
I been feeling real conceited like  
Bitch relax today  
You got a lot on your mind  
Let me crash your wave  
Its the perfect time for you to slide on thru  
I got a lot of other shit to do  
I be thinking bout the timeline  
This the lifetime, look at the world yo  
Look at the night time  
I ain't ya girl but I'll be ya lifeline  
I'll be the one, be the sun, be the bright sky

Cuz love is a bullet  
If you fear we're lost we can all be found  
Cock it and pull it  
Means just love like no ones looking  
Ooh...

Lately I feel lonely no one want me by myself  
Why spend all my time alive just tryna find me someone else  
I feel my heartbeat in my mind  
Don't wanna die all by myself  
So I go

So I throw a wrench in and fuck some shit up  
Yeah so, I put some dents in and fuck some shit up  
Yeah so, I got some big schemes and I got some big dreams  
And I need the money to buy me some big things  
And I been a slave to my ego a lot  
I wish I could just change and my ego would rot  
So I fly like a bird to the sea and the top  
I guess that's why they cannot put me in a box  
I got wings I got wings I'm the cream of the crop  
Stop! Hot!

Cuz love is a bullet  
If you fear we're lost we can all be found  
Cock it and pull it  
Means just love like no ones looking  
Ooh...

And that's life!  
After the party done  
You gon pay the sky  
(Bullet)

You gon owe it something!  
You get right!  
I'm not the only one  
(Bullet)  
I gotta shoot for something  
I got the golden gun  
I got life  
Who is we gon be?  
(Bullet)  
We gon find out in the end  
Nigga, we gon see  
We got life  
My nigga we got we  
We got life  
(Bullet)  
My nigga we got we

Gods timing is everything
