

# Deep Sea Diver

Angel Haze

Rage colored lilies  
Brave colored in pity  
Lights smother this city  
I pray he doesn't forget me  
I pray he doesn't forget me that lonely night in november when we fell into  
the hands of the coldest day in december  
Then became the product of the trust that we had lost and found  
Got you deep in the emotion just to watch you drown  
And I had never let the land sank  
Cause I was busy building castles for a dead man  
Shouldn't have taken my eyes of you  
I shouldn't have straddled the lines crossed too  
And now I've been searching but can't find you  
Hence me being lost since you're the one I'm entwined to  
So  
Is love the picture we've tainted now?  
No  
Am I still with you when I ain't around?  
Am I the subject you tip-toe or walk around?  
And if the love is on the ledge I'm trying to talk it down

(Bring me your love)  
We were deep sea divers  
(Bring me your love)  
On another man's planet  
(I need your love)  
And I fell for you hard babe  
(Bring me your love)  
But I never quite landed  
(Bring me your love)  
Now I can't be with you  
(Bring me your love)  
And I can't be with you  
(I need your love)  
And I screamed for your name and I call for you babe but I can't be with you  
(Bring me your love)  
And I can't be with you  
(Bring me your love)  
Still can't forget you  
(I need your love)  
And I screamed for your name and I call for you babe but I can't be with you  
(Bring me your love)  
And I can't be with you  
(I need your love)  
And I can't be with you

So  
Instead of sailing I live like a human parachute  
The more I'm falling the further I am compared to you  
It's like I'm stuck in the air while you're pale and blue  
Chasing clouds and hoping they lead a trail to you  
See  
We were deep sea divers  
And I was focused on survival  
And death does you part when you're focused on its rival  
Defibrillator love, I'm just focused on revival  
You could, you could put your hands in mine

And we'll walk through the sand, in the sands of time  
Until we paint the end of this love scene  
Until I'm laid to rest in your blood stream  
Until I hear the strings of your heart playing  
Until I hear the things you are not saying  
Until I find out what it really means  
And hopefully it's everything it really seems

(Bring me your love)  
We were deep sea divers  
(Bring me your love)  
On another man's planet  
(I need your love)  
And I fell for you hard babe  
(Bring me your love)  
But I never quite landed  
(Bring me your love)  
Now I can't be with you  
(Bring me your love)  
And I can't be with you  
(I need your love)  
And I screamed for your name and I call for you babe but I can't be with you  
(Bring me your love)  
And I can't be with you  
(Bring me your love)  
Still can't forget you  
(I need your love)  
And I screamed for your name and I call for you babe but I can't be with you  
(Bring me your love)  
And I can't be with you  
(I need your love)  
And I can't be with you  
(Bring me your love)  
And I screamed for your name and I call for you babe but I can't be with you

Breaking me open again  
Oh darling  
Chasing what's gone with the wind  
Oh no  
I can't be with you  
Oh no no  
I can't be with you  
I can't be with you  
Oh no no  
I can't be with you

(Bring me your love)  
We were deep sea divers  
(Bring me your love)  
On another man's planet  
(I need your love)  
And I fell for you hard babe  
(Bring me your love)  
But I never quite landed  
(Bring me your love)  
Now I can't be with you  
(Bring me your love)  
And I can't be with you  
(I need your love)  
And I screamed for your name and I call for you babe but I can't be with you  
(Bring me your love)  
And I can't be with you  
(Bring me your love)

Still can't forget you  
(I need your love)  
And I screamed for your name and I call for you babe but I can't be with you  
(Bring me your love)  
And I can't be with you  
(I need your love)  
And I can't be with you  
(Bring me your love)  
And I screamed for your name and I call for you babe but I can't be with you
