

Girl With the Gun

Angel Haze

Remember I was just a little girl
Raised in a village where there's no sun
The lions showed me its a cold cruel world
Can't let your guard down here for no one
I had to always pick myself up
Felt like it never had an end
If I learned one thing from my father
Its if the gun is in your hand
Then you better shoot!

You can't change it, I got simple plans
I'm gonna melt this world
This girl gun in my hands
Hey! To the skies, break the clouds
And let the devil see
Drop my bags, take off my mask
Take my pride, whatever's left of me
Know this world cant get no colder
One shot don't mean its over
Everything that tries to kill me
Load my gun and come back stronger
Aye!

Now you can take it all when you know who works in your soul
I was in between the fire where I couldn't tell hurt from home
But I don't want to feel like nothing not no more
I'm strong enough to kill whats held me back so long
I wont compromise, can't change the tides
Wont waste my life with you
I felt self denial, held people down
I'll take the drive with you

But still sometimes
I climb my highest searching for roots
Unbind my mind
And reach these sides wanting renew
Then you better shoot!

You can't change it, I got simple plans (No more, no more, no!)
I'm gonna melt this world
This girl gun in my hands
Hey! To the skies, break the clouds
And let the devil see
Drop my bags, take off my mask
Take my pride, whatever's left of me
To the skies
(Hey! Don't wanna live in fear no more, no more) To the skies
(Hey! Don't wanna live in fear no more, no more)

Gun in my hands
Gun in my
Gun in my hands
Running wild!
