

# Sing About Me

Angel Haze

"I'm making it for people who just wanna get lost."

"This is interesting, how, how music does that, it will just, it's like a...  
a trapdoor."

"It locks you, in."

No more living in dust  
When my memories die  
All my trials are rulin' in lullabies  
Put my heart on the line  
Put my life in the song  
Now you, now you, you can sing about me

I spent too much time in recording  
Spent too much designin' the current  
Meet me at the bottom where it started  
Promise I revised and rethought it  
And I got that, got that, got shit started  
Everything's hard and I know it  
I got all the scars, I can show it  
Never been exempt, but the funny thing is, never really had friends  
Just a bunch of down bitches only down for the moment  
All of this shit don't end  
I lost so much just to win  
And that how it goes? Lord knows, I got holes in my soul  
But I would do it all again  
So what are people mad at me for?  
Is it cause they can't jock my free flow?  
Is it cause they know no matter how hard they go  
They ain't ever gonna stop my dreams though?

Somethin' to sing about  
Put my heart on the line  
Put my life in the song  
Now you, now you, you can sing about me

I've been straddlin' the line, all my life, just to get me by  
But I dreamt of the top, of the sky, dreams of gettin' high  
Now everything I say, they gon' feel it  
Every words I lay, they gon' hear it  
Every single word, they gon' get it  
(Let me make sure they remember me)  
I tried, it was hard, but I did it  
Couple more scars, but I'm livin'  
Soon they'll never forget it, never ever forget it, never forget it  
(Let me make sure they remember me)  
All just survival of the fittest  
All just to rhyme for the critics  
Everything I want, Imma get it  
(Let me make sure they remember me)  
I tried, it was hard, but I did it  
Couple more scars, but I'm livin'  
Soon they'll never forget it, never ever forget it, never forget it  
(Let me make sure they remember me)

Name across the sky

And put the world upside down  
And when I'm done with the world, I'm takin' the galaxy  
They gonna sing about me  
They gonna sing about me  
They gonna sing about me
