

Picture Perfect

Angela Via

All of this time
Guess I must have been blind
Not to see you and me
We're picture perfect

Now baby we've been friends
For such a long, long time
We've been through laughs
And we've been through cries
But lately have you seen
The way my tongue gets tied
Can't hardly speak when I
Look into your eyes

It's because
Of the way I'm feeling
It's something I never
Dreamed
And our love
Has a different meaning
It took so long to reveal
But now I know it

All of this time
Guess I must have been blind
Not to see you and me
We're picture perfect
I should be yours
Baby, you should be mine
Meant to be-can't you see
We're picture perfect

I'm yours-be mine
We're picture perfect
Forever picture perfect

I showed some friends of mine
My favorite photograph
You know the one of you and me
From way back
And when I told them all
That you were not my guy
They couldn't see it
Couldn't understand why

Everyone
Thinks it's so romantic
They say we're two of a kind
And the more
That I think about it
The more that I realize
What I've been missing

All of this time
Guess I must have been blind
Not to see you and me
We're picture perfect

I should be yours
Baby, you should be mine
Meant to be-can't you see
We're picture perfect

My heart keeps telling me
Make up your mind
Love's what you need
You've been holding back
Too long, yeah
You know it makes good sense
The best lovers are
The best of friends
I guess we should have
Known all along

Everyone
Thinks it's so romantic
They say we're two of a kind
And the more that I think about it
The more that I realize
What I've been missing

All of this time
Guess I must have been blind
Not to see you and me
We're picture perfect
I should be yours
Baby, you should be mine
Meant to be-can't you see
We're picture perfect
