

Never Give Up

Angelic Upstarts

There is no easy solution
To an unfair constitution
You just sit back and wonder why
Now's the time to sit up and try

Where do we go from here
Who do we turn to now
Let's go
Never give up, never give up

The time is right
to take a chance
No permission just circumstance
Like the blood pumps through my veins
You've nothin' to loose but your chains

Never give up, never give up
It's never too late to start again
