

## Pretty Dead Boys

Angelspit

Hot young blow up doll, crystal fame's the drug  
I love you to death, in back alley porn  
Carnage beautiful, your life is their rug  
Single serving skin, x-grade star is born

Bleed like my new bride, keep those flags on fire  
I have what you want, addiction is bliss  
Project Lucifer, artificial youth  
You are not A list, you are Craig's List

Gentlemen prefer lust  
But don't mention names when you charge their card  
She went to play with the devil but never came back  
You might be legit, but you still eat dog shit

I like to collect, Pretty Dead Boys  
I like to make, Pretty Dead Boys  
I like to neglect, Pretty Dead Boys  
I'm filling the world with Pretty Dead Boys oh yeah oh yeah  
Pretty dead boys oh yeah oh yeah

Turn a fresh boy into a dirty old man  
Bored aimless fucking bland
