

Sylvester Stallone

Angus & Julia Stone

Just stay where you are
We talked at the bar
Walked out on the street
You walked in my heart
Wanted to breathe
There's gold in your hair
Just stay where you are

We talked on the phone
We'll meet at the beach
Like Sylvester Stallone
You're slurring your speech
Pass me the drink
Let's not walk too far
Stay where we are

Just stay where you are
Is that what you want
I'll close up the bar
I'll close up the shop
Let's take what we need
And sit in your car
Let's stay where we are

We've been here before
I'll meet you at ten
We've been here before
And we'll be here again

Let's fall from the stars
Sturdy work for the week
Let's stay where we are

It's bad and I know it
And I'd change if I could
It's bad and I know it
But I feel like I should
It's so sweet when you tell me
How lovely I am by the night's sky

The birds cannot hear us
And things fall apart
And we're waiting for answers
But where do we start
And I'm wondering what movie
You'll ask me to see on the weekend

Just stay where you are
Just stay where you are
Just stay where you are
Just stay where you are
Just stay where you are
Just stay where you are
Just stay where you are
